

## Letter to the Court in Support of Zahid Chaudhry

I am shocked and deeply dismayed that there will be a hearing to discuss deporting Zahid Chaudhry – an honored and disabled US military veteran. As a person who is involved in social justice causes, I have known Zahid Chaudhry for the past 9 years. Zahid is an active, involved and dedicated servant of the community here in Washington state. He is constantly volunteering for and organizing events that serve others including the poor and the disabled in the cause of peace and justice. It would not only be unjust for the Chaudry family to deport Zahid, it would be severely harmful to all of the people in our state that Zahid is helping. The loss to the social justice community here in Washington state would be devastating. I urge the government to reconsider their actions and I beg you to help us find a way to keep Zahid here in Washington state.

Sincerely,

David Spring M. Ed.
